

# Help Restore and Protect Sierra Meadows!

**Did you know that meadows are *hotspots of biodiversity and natural sources of water storage and purification?***

- 30 rare species of plants exist solely in Sierra Meadows
- About 19 threatened or endangered species are dependent on these ecosystems
- Meadows retain floodwaters, filter out sediment, and cool water

**Join SYRCL's  
Yuba Meadows  
Program!**

**Free meadows health  
assessment training  
Sunday, October 10<sup>th</sup> at  
Butcher Ranch Meadow!**

**Learn how to assess and  
monitor meadow health and plan  
restoration projects with the  
South Yuba River  
Citizens League  
and American Rivers**

**No prior experience required!**

***Interested?***
