

## President Mark Bailey Update

TWI | September 2, 2019

Mike Dobbins, Editor

SYRCL is looking for help.

On Sept. 21, the group will be removing mounds of garbage, piles of trash, and dens of debris at its 22nd Yuba River Cleanup.

Volunteers have been waiting all summer to haul out tires, toilets, PVC pipes, wiring, tubing, mattresses, plastic bags, straws, sandwich wrappers, diapers, cigarette butts, and more. It's intense work, but they're doing it because they love the Yuba. "We want it to be safe and clean."

You can help by donating to SYRCL's Clean-a-thon. Your donation provides much-needed financial power so they can gather the people-power for this critical community event.

Please help harness the energy of your neighbors, friends and community members. Your gift could generate 3,600 hours of volunteer labor for cleaning the Yuba and Bear watersheds – 90 miles of rivers, creeks and shorelines.
